

**Vital·O<sub>2</sub>**  
Oxygen Therapy System  
Système d'oxygénothérapie

## Oxygen Therapy System

Air Quality is increasingly precarious and all this pollution definitely affects our skin: reduced cellular activity, blood flow problems, loss of skin tone, wrinkles, pale complexion...

Faced with the prospect of irreparable damage caused by pollution, which gradually reduces the amount of oxygen in the air we breathe, we came up with the idea of the Vital·O<sub>2</sub><sup>TM</sup> oxygen therapy system.

By supplying oxygen to the skin, the Vital·O<sub>2</sub><sup>TM</sup> oxygen therapy system helps our skin produce the energy it needs for cellular metabolic processes, which has a positive impact on the health and beauty of the face and the entire body.

### **Vital·O<sub>2</sub><sup>TM</sup> Modes of Treatment**

#### **Intra-Epidermal Injection Mode**

As it delivers a flow of pure oxygen at high pressure, this mode helps carry active endocosmetic ingredients and molecules of pure oxygen to the deepest layer of the epidermis (basal layer).

#### **Inhalation Mode**

To inhale pure oxygen and experience an aromatherapy session when combined with essential oils.

#### **Facial Oxygenation Mode**

This mode is designed to oxygenate the face and simultaneously deliver pure oxygen for inhalation.

#### **Nebulization Mode**

Designed to release a cloud of pure oxygen combined with an antioxidant complex enriched with vitamins A, C and E, or a soothing lotion, depending on the desired effect.

#### **Abrasion Mode**

Connect the Vital·O<sub>2</sub><sup>TM</sup> oxygen therapy system to the VitaPeel<sup>TM</sup> microdermabrasion system (optional) to combine the benefits of oxygen and microcrystals.

### **Features**

- 1 System generates oxygen (no tank is needed)
- 2 Generates 95-98% pure oxygen
- 3 Offers 5 modes of oxygen treatment: Intra-Epidermal Injection, Inhalation, Nebulization, Facial Oxygenation and Abrasion

- 4 Needle-free injection process
- 5 May be connected with the VitaPeel™ microdermabrasion system (optional)
- 6 Avant-garde and ergonomic design
- 7 Meets international standards
- 8 One-year warranty, training and advertising material available

## **Effects**

- 1 Supplies oxygen needed to ensure cellular renewal
- 2 Instantly reduces wrinkles and fine lines
- 3 Replenishes deep skin moisture
- 4 Reduces pigment spots and acne
- 5 Improves blood and lymph circulation
- 6 Reduces signs of skin ageing
- 7 Reduces cellulite and stretch marks
- 8 Unforgettable refreshing experience
- 9 Microdermabrasion is less irritating (when combined with the VitaPeel™)

## **Dimensions**

44,45 cm (17.5") × 54,6 cm (21.5") × 95,25 cm (37.5")

## **Weight**

47,5 kg (104.7 lb)
